I've always been curious about how digital services and web applications work. This curiosity led me to pursue a degree in IT, where I built a strong foundation in programming and databases. Currently, I am learning Python at Taitotalo and looking for opportunities to apply what I've learned in real-world projects.

Skills	→ JavaScript	→ TypeScript	→ Python
	→ React	→ Databases	→ Git
	→ Jira	→ CI/CD	→ GitHub
Education	Python Programming   <a href="#">Taitotalo</a>   Nov 2024 – June 2025		
	- Workforce training program		
	Business Information Technology   <a href="#">Haaga-Helia</a>   Jan 2021 – June 2024		
	- Bachelor's Degree   4.69 GPA		
Work Experience	Web Developer   <a href="#">Vesko</a>   Sep 2024 – Dec 2024   Helsinki		
	- Built <b>10+ UI components</b> and layouts using React TypeScript.		
	- Migrated <b>1,000+ lines of code</b> to a new maintainable codebase.		
	- Redesigned layouts with Tailwind CSS improving responsiveness by <b>15%</b> .		
	Full Stack Developer Trainee   <a href="#">Integrify Oy</a>   May 2022 - Oct 2022   Helsinki		
	- Gained hands-on experience in full-stack development, building <b>3+ projects</b> with React, Redux, Node.js and MongoDB.		
	- Solved <b>5+ coding challenges</b> daily, improving debugging skills.		
	- Worked with team of <b>8 developers following Scrum methodology</b> .
